

# An Engineer Refutes The 9/11 Commission Report

The 9/11 Commission's Chairman Kean and vice-chair Hamilton in their book, *Without Precedent: The Inside Story of the 9/11 Commission*, write that they were “**setup to fail**”. Sen Cleland resigned from the 9/11 Commission saying, “**It's a scam**”. Sen Kerrey “**threatened to resign**”.

Polls show that 50% of New Yorker's question *The 9/11 Commission Report*.

Enver Masud\*—an engineer and award-winning author—says: “**The major conclusions of the 9/11 Commission report are false.**”

- **The FBI says they have “no hard evidence against Bin Laden”**
  - **AA Flight 93 appears to have been shot down**
- **There's no hard evidence that AA Flight 77 struck the Pentagon**
- **Explosives were used to bring down the Twin Towers of the WTC**
- **There's no official explanation for the collapse of WTC Building 7**

Enver presents video clips and pictures—never seen by most Americans—that, at the very least, create “reasonable doubt” that 9/11 was the work of 19 Arab hijackers led by Bin Laden. Come ask tough questions at a talk sponsored by the MCWS and the Muslim Observer—all are welcome. We'll also discuss what you can do to change prevailing perceptions.
