Dear Sir:

It is stated at the ICC [website](#): “The OTP is currently conducting preliminary examinations in a number of situations including Afghanistan, . . . ” and one is invited to “submit information about alleged crimes”. This letter and enclosures provide information about the coverup of the facts of 9/11 used to justify the wrongful invasion of Afghanistan.

Former Supreme Court Justice Robert Jackson, chief U.S. prosecutor at the first Nuremberg trial, called waging aggressive war “the supreme international crime”. The enclosed [Evidence of Complicity and Cover-up at the Pentagon](#), [slide presentation](#), and book [9/11 Unveiled](#) contain information that could lead to indictments of individuals who were either complicit in or covered up the facts of 9/11 that led to the invasion of Afghanistan.

A co-founder of the Center for Strategic and International Studies, Washington, D.C., Deputy Director for Planning at the National Security Council, and Principal Foreign Policy Adviser to Richard Nixon has written: “*9/11 Unveiled* . . . is the best short summary of what most Americans and virtually all of the rest of the world consider to be the ‘9/11 mystery’.”

I managed the National Power Grid Study (directed a couple of dozen, multidisciplinary teams — total 150 persons), and the National Electric Reliability Study for the U.S. Department of Energy. I also set up and directed the Operations Review Division at the Iowa Commerce Commission, and consulted for the U.S. Agency for International Development and the World Bank in several countries. I’ve received awards from the Human Rights Foundation (South Africa), the U.S. Department of Energy, and the American Federation of Muslims of Indian Origin.

I urge you to examine the enclosed evidence. My associates and I are prepared to provide more.

Sincerely,

Enver Masud
